

Chaperone Expectations

1. Our church policy is that all individuals identified as chaperones be baptized Christians, at least 21 years of age, and approved by the elders.
2. The purpose of having chaperones with us on a trip is to help us ensure the well-being and safety of our students. As a chaperone, we ask that you maintain proper vigilance for all students within your visual range.
3. We ask that you plan to stay at the event you are chaperoning until it is completely over, and all students have been safely returned to their families.
4. As a chaperone it is important that you are a positive Christ-like influence on the students. You are there to watch them, but also to teach them how to behave and have fun as a Christian.
5. We ask that you familiarize yourself with and dutifully enforce our established guidelines and expectations for the students' behavior and dress. They can be found on the 'forms' page of the website .
6. During classes or devotionals, please be involved and engaged. You are there to learn, grow, and mature as well. Nothing undermines the importance of something in the eyes of our students as well as adults who aren't paying attention.
7. Thank you so much for your participation and your willingness to be a chaperone for our students. We could not go on these trips without your involvement!
